Odoo

Odoo is a suite of web based open source business apps.

The main Odoo Apps include an Open Source CRM, Website Builder, eCommerce, Project Management, Billing & Accounting, Point of Sale, Human Resources, Marketing, Manufacturing, Purchase Management, ...

Odoo Apps can be used as stand-alone applications, but they also integrate seamlessly so you get a full-featured Open Source ERP when you install several Apps.

Getting started with Odoo

For a standard installation please follow the Setup instructions from the documentation.

If you are a developer you may type the following command at your terminal:

```
wget -O- https://raw.githubusercontent.com/odoo/odoo/9.0/odoo.py | python
```

Then follow the developer tutorials

For Odoo employees

To add the odoo-dev remote use this command:

```
$ ./odoo.py setup_git_dev
```

To fetch odoo merge pull requests refs use this command:

```
$ ./odoo.py setup_git_review
```
